

DATA SHEET

GRIDTRACK

Above-ground steel foundation adapted for vehicle charging. Adapted for both DC and AC charging

DESCRIPTION:

TectoPower GridTrack is available in several sizes and is installed without digging as the foundation is anchored directly into the ground. The modular design makes it easy to adapt the system to the number of chargers and charger brands.

MATERIAL:

Steel

SURFACE TREATMENT:

Hot-dip galvanized, EN ISO 1461

MANUFACTURING:

In our own factory in Malmö, Sweden

PRODUCT WARRANTY:

25 years (see TectoPower warranty terms)

DIMENSIONS & WEIGHT:

GT Charging section:	1000x600mm	41 kg
GT Cable Channel:	2500x500x223mm	40 kg
GT Mounting plate:	585x585mm	6-7.5 kg

COMPONENT(S):

No.units	Article ref.	Name
Requested quantity	1062-6000-0001-60	GT Charging section
Requested length (per meter)	1062-2001-0100-60	GT Cable channel
Quantity according to order	1062-0020-xxxx-xx <i>Depends on charger brand</i>	GT Mounting Plate
